VIRAJ AMOL DHAS

AI / GenAI Engineer • Python Developer

Pune, India | +91 8983382688 | dhasviraj0707@gmail.com | linkedin.com/in/viraj-dhas | github.com/Viraj1711 | virajdhasportfolio.netlify.app

PROFESSIONAL SUMMARY

AI/GenAI Engineer & Junior Python Developer with hands-on expertise in architecting full-duplex real-time voice agents, RAG pipelines, and high-concurrency FastAPI microservices. Skilled in WebSockets audio streaming, vector search, Redis cross-memory management, and cloud deployments, with a proven track record of reducing latency and delivering high-accuracy AI workflows.

TECHNICAL SKILLS

- **AI / GenAI:** RAG, LangChain, AI Agents, Agentic Workflows, Prompt Engineering, Context Engineering, Embeddings, Vector Search (MongoDB Atlas), Dual-Model Architectures
- **Voice / Real-Time:** Full-Duplex WebSockets, Real-Time Voice Bots, STT (Deepgram), TTS (ElevenLabs), Async Audio Buffering, VAD
- **Backend & APIs:** Python, FastAPI, AsyncIO, Redis Cache, Redis Pub/Sub, Django, REST APIs, JWT Authentication, Microservices
- **Data & Automation:** PostgreSQL, MongoDB, SQL, Playwright, Selenium, BotCity, Scikit-learn, OpenCV, YOLOv5, TensorFlow, Power BI
- **Cloud & DevOps:** Microsoft Azure, Docker, GitHub Actions, CI/CD, Git, Linux, PyTest, Unit Testing, Agile/Jira

PROFESSIONAL EXPERIENCE

Orvera.ai | *Junior Python Developer (AI & Automation)*
Pune, India
Nov 2025 – Present

- Architected full-duplex Voice Agent and Agent Assist platforms using FastAPI, AsyncIO, and WebSockets for bidirectional STT/TTS streaming with Deepgram and ElevenLabs.
- Engineered a Dual-Model Architecture for Agent Assist, combining a fast LLM for real-time intent suggestions with a high-capacity LLM for deep retrieval over vector knowledge bases.
- Implemented multi-session state persistence using Redis Cache and Pub/Sub for cross-memory tracking, context-window management, and sub-second chunked LLM response streaming.
- Developed automated workflow testing scripts using Playwright and BotCity, streamlining repetitive backend verification steps.
- **Impact:** Reduced voice interaction latency to sub-800ms and achieved 85%+ RAG retrieval accuracy across real-time call-center support workflows.

QSpiders (Incubation Program) | *Python Full Stack & Analytics Trainee*
Pune, India
Jan 2024 – Oct 2025

- Engineered full-stack applications using React.js, Django, FastAPI, SQL/MongoDB, secure JWT authentication, and role-based access control.
- Integrated interactive business-intelligence dashboards built in Tableau and Power BI into web application interfaces.
- **Impact:** Delivered 5+ production-ready web modules with 90%+ unit test coverage via PyTest.

NullClass EdTech | *Data Science Intern*
Remote
Jan 2024 – Jun 2024

- Performed EDA and data preprocessing on academic datasets using Pandas, NumPy, and Seaborn.
- Built predictive ML visualization dashboards utilized by 500+ educators.

KasNet Technologies | *Microsoft Cloud Intern*
Pune, India
Jan 2023 – Dec 2023

- Configured Azure cloud deployments and automated CI/CD pipelines using GitHub Actions and PowerShell.
- Automated 15+ deployment workflows, reducing release cycle times by 40%.

SELECTED PROJECTS

Real-Time Voice Agent & Agent Assist Copilot **Python, FastAPI, WebSockets, Redis, RAG, LangChain**

- Engineered an end-to-end voice/agent-assist engine with WebSocket audio streaming, Redis cross-memory, and hybrid vector search for knowledge lookup; delivered sub-second response latency with 85% accuracy across concurrent call-streaming sessions.

Blockchain-Based Certificate Verification System **Python, Django, React.js, SHA-256, SQL**

- Developed a verification engine using Merkle Tree cryptographic hashes for tamper-proof authentication; validated 1,000+ certificates.

Suspicious Activity & Object Detection System **Python, Django, OpenCV, YOLOv5, TensorFlow**

- Built a real-time surveillance dashboard for live video-frame analysis and anomaly identification with 92% detection accuracy.

EDUCATION & CERTIFICATIONS

B.E. in Computer Engineering | *CGPA: 8.02* **Navsahyadri Group of Institutions, Pune, India**

- **Microsoft Certified:** Azure Fundamentals (AZ-900)
- **Technical Certifications:** LLM/RAG, Python Data Science & ML, Django
- **Achievements & Leadership:** Hackathon Finalist | Tech Workshop Trainer (150+ students)
- **Academics:** HSC: 84.33% | SSC: 82.80%
